ALTERNATE DAILY COVERS

Colorado Lining uses Woven Geotextile for our ADC Covers. Every seam is machine welded in a climate controlled environment. Gusseted Lift Loop handles, using reinforced seat-belt strap material, are attached every 7'6". The perimeter of the Cover is sewn for added reinforcement.

CLI has extensive fabrication capabilities and experience.

Product Features:

- Reduce The Amount of Soil Used Daily
- Save Air Space
- Reduce Odors
- Vector Control
- Minimize Infiltration
- Reduce Animal Digging
- Avoid Hauling Costs
- Save Money

Uses & Applications:

- Containment
- Landfills

Look to CLI to help you find solutions!
