RAIN COVERS

Colorado Lining uses 12 to 24 mil Woven Coated material for our Rain Covers. Every seam is machine welded in a climate controlled environment. The perimeter of the Cover is hemmed for added reinforcement.

CLI has extensive fabrication capabilities and experience.

Product Features:

- Reduce Leachate Problems
- Keep Rainwater Out
- High Strength
- Lightweight
- UV Stable
- Save Money

Uses & Applications:

- Containment
- Landfills

Look to CLI to help you find solutions!
